

The Cluj-Napoca Declaration regarding terrorism

Taking into account the globalisation of terrorism, the continuously increasing number of acts of terrorism in the most cruel, diverse and „subtle” forms, us, a group of Romanian intellectuals:

Condemn the practice of using children and young people for political reasons:

- **Wherever they would happen, may it be Moldavia (Transnistria), or Russia (Osetia)**
- **Irrelevant of the purpose,** may it be ethnical „cleaning” as in Moldavia, national liberation like in Cecenia, for fundamentalist reasons like in the Middle East or ideological as in the countries ruled by dictatorship.
- **irrelevant of who the authors are,** (the communist militia Transnistria, islamic groups) **or who they are supported by.**

Condemn terrorism and violence in any forms, may it be individual, organised or promoted by the state.

Condemn those unworthy politicians:

- **who promote or use terrorism as a political weapon,**
- **who ignore certain acts of terrorism,**
- **who react to terrorism only when they are directly affected by it, or**
- **who react to terrorism with terrorism**

Now, more than ever, the civilised world, *every citizen*, must condemn, must eliminate and call to account those political leaders – of a nation or of the world – which are undecided or sensitive to only certain acts of terrorism.
